

A long-exposure photograph of a beach at night. In the foreground, a bonfire burns brightly on the right side, casting a warm orange glow. Numerous long, thin, orange light trails arc across the dark sky and beach, likely from a firework or a light-painting activity. The beach is dark and textured, with some footprints visible. In the background, the ocean is visible under a deep blue night sky.

Executive summary

OVERVIEW

Alice was beginning to get very tired of sitting by her sister on the bank, and of having nothing to do: once or twice she had peeped into the book her sister was reading, but it had no pictures or conversations in it. “And what is the use of a book,” thought Alice, “without pictures or conversations?”

So she was considering in her own mind (as well as she could, for the hot day made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be worth the trouble of getting up and picking the daisies, when suddenly a White Rabbit with pink eyes ran close by her.

Signal Flare will generate revenue in three ways:

1. There was nothing so very remarkable in that; nor did Alice think it so very much out of the way to hear the Rabbit say to itself, “Oh dear! Oh dear! I shall be late!”
2. There was nothing so very remarkable in that; nor did Alice think it so very much out of the way to hear the Rabbit say to itself, “Oh dear! Oh dear! I shall be late!”

There was nothing so very remarkable in that; nor did Alice think it so very much out of the way to hear the Rabbit say to itself, “Oh dear! Oh dear! I shall be late!” (When she thought it over afterwards, it occurred to her that she ought to have wondered at this, but at the time it all seemed quite natural.) But when the Rabbit actually took a watch out of its waistcoat-pocket, and looked at it, and then hurried on, Alice started to her feet, for it flashed across her mind that she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take out of it.
